VIRTUAL EVENT

The Future of AI in Ecommerce: Rewriting the Playbook

Register Now

March 4

11am PST / 2pm EST

Join us for an insightful virtual event featuring leaders from Adobe and Concentrix as we explore how AI is revolutionizing commerce for B2B and B2C businesses.

Discover how to deliver scalable, personalized experiences and unlock new growth opportunities:

- Learn how autonomous AI agents and Adobe's platform enable seamless multi-channel experiences across web, mobile, and marketplaces—all managed from a single back end
- See how leading brands are deploying AI agents for personalized shopping experiences, intelligent inventory management, and seamless omnichannel engagement
- Get actionable strategies for implementing AI-powered commerce in your organization, from identifying high-impact use cases to measuring ROI and scaling successfully

Enjoy a chocolate tasting on us while gaining practical insights to accelerate your commerce transformation. Don't miss this opportunity to stay ahead in the rapidly evolving world of digital commerce.
